### **Bias against left-handed people - Wikipedia**

In human biology, handedness is a better, faster, or more precise performance or individual preference for use of a hand, known as the dominant hand; the less capable or less preferred hand is called the non-dominant hand. Men are somewhat more likely to express a strongly dominant left hand than women. It is estimated that between 70 and 95 percent of the world's population is right-handed.

### **sinister - Wiktionary**

Left-handedness is the preference to use the left hand more than the right hand for daily activities such as writing or using tools. Most people can use either hand for many things. However, people very often have a definite preference for using the left or right hand for things such as: using a pen, using a knife, using scissors, brushing teeth, blowing their nose, and so on.
