Growing pains often get better on their own within a year or two. And if they don't go away completely in a year or so, they often become less painful. In the meantime, you can help ease your child's discomfort with self-care measures, such as massaging your child's legs.

Growing pains - Diagnosis and treatment - Mayo Clinic

Growing pains may consist of tenderness caused by overwork during hard exercise. Children don't feel sore while they're having fun; only later, when the muscles relax, do the pains come on. Children don't feel sore while they're having fun; only later, when the muscles relax, do the pains come on.

Pain is a signal in your nervous system that something may be wrong. It is an unpleasant feeling, such as a prick, tingle, sting, burn, or ache. Pain may be sharp or dull. It may come and go, or it may be constant. You may feel pain in one area of your body, such as your back, abdomen, chest, pelvis, or you may feel pain all over.
