Artificial intelligence and machine learning in financial

International Journal of Advanced Research (IJAR) is an open access, peer-reviewed, International Journal, that provides rapid publication (monthly) of research articles, review articles and short communications in all subjects. IJAR has got Impact factor of 6.118 and highest Index Copernicus value of 56.43.

International Journal of Advanced Research

A self-replicating machine is a type of autonomous robot that is capable of reproducing itself autonomously using raw materials found in the environment, thus exhibiting self-replication in a way analogous to that found in nature. The concept of self-replicating machines has been advanced and examined by Homer Jacobsen, Edward F. Moore, Freeman Dyson, John von Neumann and in more recent times ...

Self-replicating machine - Wikipedia

FLIR Tools+ provides an expanded set of cutting-edge controls for generating more comprehensive thermal imaging inspection and research reports. Record and playback radiometric video files and time/temperature plots. And provide advanced analysis data and more detailed thermal imagery in impressive PDF documents that show anomalies, trends, and results with greater precision.

FLIR Tools+ Advanced Thermal Analysis and Reporting

Predictive analytics encompasses a variety of statistical techniques from data mining, predictive modelling, and machine learning, that analyze current and historical facts to make predictions about future or otherwise unknown events.. In business, predictive models exploit patterns found in historical and transactional data to identify risks and opportunities.

Predictive analytics - Wikipedia

This book provides a versatile and lucid treatment of classic as well as modern probability theory, while integrating them with core topics in statistical theory and also some key tools in machine learning.
