produced. The product produced during each iteration should be able to be put into the world to gain feedback from users or stakeholders. Unlike Waterfall project management, which is strictly sequenced: you don't start design until research is done and you don't start development until the designs are signed off on; agile has designers,

AGILE

From that, a chair would be a product. Microsoft Office would be a product. Agile consulting services would be a product. A painting would be a product. A product can be a something physical (the chair). It can be a digital product (Microsoft Office, an ebook or streaming videos). It also can be a service (consulting on how to adopt agile).
