2018 Port Authority Construction Program

Construction management (CM) is a professional service that uses specialized, project management techniques to oversee the planning, design, and construction of a project, from its beginning to its end. The purpose of CM is to control a project's time, cost and quality—sometimes referred to as a project's "triple constraint."

Construction management - Wikipedia

The Office of Construction & Facilities Management (CFM) is responsible for the planning, design, and construction of all major construction projects greater than \$10 million.
