In game theory and economic theory, a zero-sum game is a mathematical representation of a situation in which each participant's gain or loss of utility is exactly balanced by the losses or gains of the utility of the other participants. If the total gains of the participants are added up and the total losses are subtracted, they will sum to zero. Thus, cutting a cake, where taking a larger ...

In mathematics, economics, and computer science, the stable marriage problem (also stable matching problem or SMP) is the problem of finding a stable matching between two equally sized sets of elements given an ordering of preferences for each element. A matching is a mapping from the elements of one set to the elements of the other set. A matching is not stable if:

To Know You Better is a fun game for couples - dating, engaged, or married - to get to know each other better. The 240 cards, divided into 4 categories, will keep you laughing as you answer questions on a variety of topics. The game does not involve any physical intimacy, and the cards are carefully written to avoid discussions that might be embarrassing or uncomfortable.
