In 1952, Wernher Von Bruan prophesied Joe idea - wlym.com

Wernher von Braun's Space Plane Although this spacecraft was never built and may seem odd by today's standards, half a century ago it represented the cutting edge in aerospace engineering. It was designed by one of the most famous rocket scientist of all time, Wernher von

Wernher von Braun's Space Plane - jleslie48.com

However after researching, we discovered that Wernher von Braun left a legacy far more significant than Goddard's. Von Braun's life story was also much more intriguing in that he was a German scientist who developed the V2 Rocket but also the face of the American space program.
