Geography: Realms, Regions, and Concepts, 17e WileyPLUS

Physical geography (also known as geosystems or physiography) is one of the two major sub-fields of geography. Physical geography is the branch of natural science which deals with the study of processes and patterns in the natural environment like the atmosphere, hydrosphere, biosphere, and geosphere, as opposed to the cultural or built environment, the domain of human geography

Global citizenship is the idea that all people have rights and civic responsibilities that come with being a member of the world, with whole-world philosophy and sensibilities, rather than as a citizen of a particular nation or place. The idea is that one's identity transcends geography or political borders and that responsibilities or rights are derived from membership in a broader class ...
